

Minnesota Subcontractors Association

3rd Annual

CONSTRUCTION TECHNOLOGY SHOWCASE

Event details:

Join us for our annual technology showcase; we have put together a great lineup of speakers for you that will include a range of technology in construction topics. We will start with a local BIM topic on where it's at, how it works and where it's going followed by an in-depth look at Blockchain security! Then we will jump into our keynote speaker and the vastly growing technology components in the construction industry with the ConApp Guru, Rob McKinney. Lastly, we will provide time at the beginning, between speakers and at the end of the event to network with exhibitors!
